BioGym Software

Your smart gym management solution

Supports ZKTeco Devices

Transform Your Gym Management with ZKTeco Device Integration

Bio Gym is a next-generation web-based gym management platform designed for modern fitness businesses across the **Middle East and Africa**. It combines **membership management**, **flexible time-based subscriptions**, and **advanced biometric security** in one unified system—fully compatible with **ZKTeco devices**.

Built for scalability, Bio Gym supports **multi-branch operations** with **seamless member synchronization across all locations**, delivering a connected and efficient experience. With **automation**, **real-time insights**, and full support for **English and Arabic**, it empowers fitness centers to streamline operations, enhance security, and maximize revenue.

Why Customers Love It?

⚡ **Fast Entry (No Waiting)**
Touch-free biometric and QR entry with sub-second verification speed, even during peak hours.

⚙️ **Smart Membership Management**

Manage **10,000+ members across multiple branches** with real-time synchronization and flexible pricing models.

🚀 **Frictionless Member Journey (From Entry to Billing)**
Deliver a seamless digital experience with automated check-ins, real-time updates, and integrated access control.

Take a look inside

🏋️ **All-in-One Gym Management:** Manage members, trainers, employees, subscriptions, and personal training sessions effortlessly.

🔒 **Secure Access Control**: Biometric enrollment via Face, Fingerprint, or Card ensures safe and monitored entry

💬 **Automated Communication & Billing**: Send Email & WhatsApp reminders, print VAT-compliant invoices/receipts, and issue QR tickets for one-time visits.

⚡ **Reliable & Scalable Platform:** Microsoft SQL Server database with enterprise-grade performance. Supports 500+ devices per deployment.

📱 **Multi-Device & Multi-Branch Support**: Access from PC, Laptop, Tablet, or Mobile; cloud or on-premise deployment; designed for scalability across multiple branches and thousands of users.

System Architecture

REAL-TIME INTELLIGENCE

👀 **See Everything. Know Everything:** Monitor subscribers in real-time with photos, check-in times, and subscription expiry status.

🖥️ **Interactive Dashboard:** Intuitive interface displays live member activity and key statistics at a glance.

🔄 **Dual-Screen Support:** Push member status to a second screen at the reception for a modern, high-tech experience.
